

## Coleman School Board Budgets For \$56,000 In 1946

### Given A \$7,000 Boost Over Actual Expenditures In 1945; Dental Contract Accounts For \$2,000

Mill Rate Not Yet Determined; Repairs to Take Absorb Additional \$2,000 As Well As Additional New Expenditures For General Shop And Home Economics

On Sunday morning Finance Chairman George Evans brought down his 1946 estimates at the regular meeting of the School Board. The estimates showed a boost of better than \$7,000 over the actual expenditures in 1945. Highlights in the budget revealed that General Shop and Home Economics will be again taught in the 1946-47 term. These two classes added \$600 to the estimates. The two items that boosted the

STUDEBAKER CHAMPION ON DISPLAY AT THE WHITE ROSE GARAGE

Jim Wilkie was at Calgary during the week end and returned with the new Studebaker Champion. This beautiful car is now on display at the White Rose Service Station and Jim extends an invitation to all to come in and inspect it. Jim will be only too pleased to answer questions

## CURFEW

At 9.30 p.m.

### To Start Immediately

All children aged 14 years or under must be off the street at that time unless in the company of their parents.

WILLIAM ANTLE, Chief of Police.

## Notice To Parents

By order of the Medical Doctor in the Town of Coleman, no boy or girl sixteen years and under will be allowed admission to the local theatre during the present outbreak of measles.

COLEMAN TOWN COUNCIL.

Showing at

**Palace Theatre, Coleman**  
SATURDAY and MONDAY  
March 23 and 25

**Cole's Theatre, Bellevue**  
TUESDAY and WEDNESDAY  
March 26 and 27

**Orpheum Theatre, Blairmore**  
THURSDAY and FRIDAY  
March 28 and 29

### Scene From Winning Play In Last Year's Lions' Drama Festival

Picture shows a scene in the play, "To Die With a Smile," which won first place in the Lions Drama Festival last year. The play was entered by Cardston Players and directed by Mrs. Alice Dowdle. Last year the contestants played to capacity houses and it is expected the five plays entered this year will be greeted with the same enthusiastic support.

Thursday, April 4, will be the opening night of the three-day "Fifth Annual Drama Festival," sponsored by the Coleman Lions Club. Much work has already been completed in preparing for the festival and the five entries received

by the committee in charge provide for an excellent program.

On Thursday, April 4, in order of their presentation, there will be the three following plays: "Nancy Hanks, Bondswoman," an American folk play, by the Coleman Drama Club, Jim Allan, Jr., director; "A marriage Proposal," a comedy, presented by the Blairmore Players, Mrs. Fleming director, and "The Great Dark," a drama, presented by The Bellevue School Players, Reverend W. Irwin director.

On Friday, April 5, there will be two plays and an adjudication. The two plays will be "The Giant's Stair," a drama, by the Coleman Players, Mrs. Arthur Graham di-

rector, and "Funeral Flowers for the Bride," an American folk play by the Cardston Lions Drama Club, Mrs. N. Peterson director. Following the two plays will be an adjudication by Mr. Sidney Risk, Drama Director of the Faculty of Fine Arts at the University of Alberta, whose interesting adjudication last year was greatly enjoyed by the audiences.

It is largely because of his great liking for the audiences of Coleman last year that Mr. Risk highly commended the suggestion that the festival should include an "audience night." Therefore, a new feature this year will be the inauguration of this audience night on Saturday,

April 6. An explanation of dramatic and stage technique, with illustration of its various phases, will be given by Mr. Risk, the adjudicator. This will be open to the public, without admission charge, and it is expected that many interested theatre-goers will take advantage of this unique opportunity to learn what goes into the production of a good play and something about the mechanics of direction and acting. The illustrations will be provided by the festival casts under Mr. Risk's direction and audience members may participate to the extent they desire.

### Robert Penman Passed Away On Wednesday

Had Been Ailing for Past Seven Months; Had Been Admitted to Hospital Tuesday Evening; Funeral Sunday.

The death occurred at the local hospital at 1 p.m. Wednesday of Robert "Bob" Penman, 67, following an illness of seven months. He had been taken from his room in the Grand Union hotel on Tuesday evening and died less than 24 hours later.

Deceased, who had possessed a quiet conservative nature, had confided only a few days ago to a few close friends that he was having difficulty walking around. His condition became worse and he was admitted to hospital.

Born in Cluny Square, Kircaldy, in 1879, he was raised and educated in that town. He moved along with his family when a youth to Bow Hill, where he secured employment in the coal pit. In 1904 he came to the States and two years later he came to Canada, settling at Vancouver. Two years on the west coast saw him leave for Coleman, where he had made his home up to the present time. During his early days here he batched with Dave Robert. He has resided in the Grand Union hotel ever since the present

building was built seventeen years ago. He secured employment with International when he first arrived here and remained with the company until sickness forced his retirement some months ago.

Surviving are a sister, Bella, and three brothers, Archie, William and Jim, in Scotland, and a brother, David, of Ottawa and formerly of Coleman.

In his youth deceased was active as a trainer of football players in his own village. In Coleman his one sport was fishing, and he was really an ardent fisherman.

A friend, Archie Anderson, is in charge of funeral arrangements. The funeral will take place on Sunday afternoon at 1 o'clock from the home of Mr. and Mrs. John Kinnear, sr., Second street.

MRS. MARGARET McDONALD VISITED COLEMAN

Mrs. Margaret McDonald, of Calgary, was a business visitor in town during the week. Mrs. McDonald is gaining quite a reputation for herself in her fight for increased Old Age pensions. She has written much on the subject and in order to further the movement for increased pensions was in the Pass lining up dates for public meetings in order to create additional interest in the subject.

The Ladies Auxiliary, BESL, will sponsor their annual bazaar on Saturday, June 15. Please reserve this date.

### Public Schools Closed Due To Measles Epidemic

Central and Cameron Youngsters Sent Home Tuesday Morning; Children 16 Years and Under Prohibited From Attending Theatres.

An outbreak of measles of widespread proportions caused Dr. D. Hope Gill to take drastic action by closing Coleman public schools on Tuesday morning and prohibit youngsters 16 years and under from attending the theatre in an effort to halt the spread of the disease.

Dr. Hope Gill stated he lost count after 34 cases had been

brought to his attention and he surmises that there are several other cases he has not had reported to him. Tuesday he was kept busy almost the entire day visiting youngsters having or suspected of having the disease.

He wired Edmonton Tuesday morning for a supply of Gamma Globulin, which is a preventative inoculation, but unfortunately there was none to be had in the city.

420 school children are affected by the schools' closing and the buildings will remain closed for an indefinite period. High school students are still attending school and will continue to do so unless the disease becomes more serious than at present.

Mr. and Mrs. Tom Heyes, of Natal, were the Sunday guests of Mr. and Mrs. George Derbysire.

## Peacetime Problems

DURING THE WAR Canada rose to a foremost place among the nations of the world. The rapid advances made in the production of food and manufactured articles, in shipping, in science, medicine and many other lines of endeavour were very great, when considered in relation to the size of the population here. These results were achieved because the entire country was organized for the purpose of giving the fullest support to the winning of the war. In time of war there is almost nothing which is considered impossible to accomplish in the interests of speeding victory. When difficulties arose in production, transportation, or other vital places, expert advice was obtained and remedies were quickly provided. These methods, which proved so effective in war, should be equally useful in dealing with peacetime problems, some of which have already appeared in the form of the housing shortage, unemployment and the world food shortage.

### Demand Here Is Not Sufficient

In deciding future policies, both in internal affairs and in regard to our relations with other countries, there is need for continued public interest and co-operation in all that is undertaken. It is evident that there are opportunities for expansion here in many lines, in agriculture, in mining, in manufacturing and in scientific and cultural endeavour. Canada is possessed of great potentialities, but if they are to be developed to their fullest extent we must have either a much larger population or greatly expanded markets. The present population cannot absorb even the greater part of the products of our farms, factories, mines, forests and fisheries. This is a problem which vitally concerns the future development of this country and which will have a far-reaching effect on such matters as taxation, employment and farm prices.

### Much Acreage Still Unused

In agriculture there are opportunities for great development. Mr. J. F. Booth, associate director of marketing for the Dominion Department of Agriculture, recently stated that there are between 25,000,000 and 27,000,000 acres of land in Canada, which are unused, but are reasonably accessible and could be used for agriculture. These figures do not include land in the Yukon or the Northwest Territories. Mr. Booth estimated that this land would provide from 158,000 to 168,000 farms, including irrigated units. He pointed out, however, that these areas would be brought under cultivation only if Canada had a larger population or a greatly increased foreign market. These figures show the possibilities for the expansion of agriculture, and this is only one of the many potentialities of the country. To deal wisely with these matters we need the same type of co-operation and skill which contributed in so great a measure to the winning of the war.

## GREAT NAVAL BASES

### Two In Northern Ireland Helped In Defence Of Convoys

The Governor of Northern Ireland, Vice-Admiral the Earl Granville, has cited some remarkable facts and figures showing the outstanding importance of Belfast and Londonderry as naval bases during the war. "Those two ports," he said, "located on the flank of the immediate exit to the Atlantic from Great Britain, played a most important part in the vital defence of convoys. No fewer than 85,493 ships were escorted on ocean convoys during the war and of these only 649 were lost."

As for Belfast's shipbuilding activities in wartime the Governor mentioned that as a result of the excellent facilities in the port repairs to merchant vessels amounting to nearly five million gross tons were completed. One of many remarkable feats was the almost complete rebuilding of the White Star liner *Georgic* which has recently been carrying troops home from liberated areas in the Far East. H.M.S. *Formidable*, built at Belfast, had a gallant wartime record. She took part in the attacks on the Tokyo region by a British task force. Another Belfast-built ship was the light fleet carrier *Glory*. She too has been operating in the Pacific, and appropriately took the surrender of the Japanese forces in New Ireland, besides New Guinea, New Britain and the Solomon Islands.

**HOLLYWOOD BIDS** — Several Hollywood producers have made offers for screening rights of the book, "The Long November," written by James Beeson Nabbs of St. Catharines, Ont. Mr. Nabbs is now in Hollywood, where several motion picture houses have made offers for rights to screen his story of the impressions of a Canadian infantryman at the front in Italy.

### GEMS OF THOUGHT

#### ASSURANCE

The shortest and surest way to live with honor in the world, is to be in reality what we would appear to be. —Scrotes

It is wonderful what strength of purpose and boldness and energy of will are roused by the assurance that we are doing our duty. —Scott

Anxiety is a word of unbelief or unreasoning dread. We have no right to allow it. Full faith in God puts it to rest. —Horace Bushnell

Truth, Truth, not error; and Truth will give you all that belongs to the rights of freedom. —Mary Baker Eddy.

When you have read the Bible, you will know it is the word of God, because you will have found in the key to your own heart, your own happiness and your own duty. —Woodrow Wilson.

Before me, even as behind, GOD IS —and ALL IS WELL. —Whittier

### Not Hard Task

Rehabilitation Of Women In Canada Has Been Satisfactory

Rehabilitation of women who served in the armed forces had not been the problem expected, Dr. Olive Russell of Ottawa, executive assistant to the director-general of rehabilitation, Department of Veterans Affairs, said. Addressing a women's rehabilitation conference in Saskatoon, Dr. Russell said about 24,000 women had been demobilized and all but approximately 400, as far as she knew, had been successfully rehabilitated. Ex-Servicewomen were showing initiative and adaptability and had a definite contribution to make to any community.

#### URANIUM DEPOSIT

The largest deposit of uranium known in the world has been discovered in Australia, near Stanthorpe, Queensland. The London Daily Mail quotes the general secretary of the Australian Workers' Union as declaring further that the fire in this deposit yields the highest known percentage of uranium; samples sent to London having assayed three per cent. uranium.

### PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE CANADIAN PATENT OFFICE, 273 Bank Street, Ottawa, Canada.

## Price Control And Rationing Information

Q.—If a tenant accepts a dwelling with the written agreement that he is renting same for a period of five months, can he be given notice to vacate if he refuses to move when this five-months' period is terminated?

A.—Yes, if the lease is for five months only, the owner may expect to regain possession at the end of that time. This lease for five months is called a "term certain" lease and the tenant is not entitled to any notice to vacate.

Q.—Are we going to have canning sugar this year?

A.—Yes, in 1946 each consumer will be allocated ration coupons to purchase ten pounds of sugar for canning purposes. You will be advised in the near future which coupons will become valid for this purpose.

Q.—Is there a ceiling price on a 1932 used car?

A.—Yes, there is a ceiling price on all types of used cars, no matter what year they were manufactured. Contact your nearest Wartime Prices and Trade Board office for information on ceiling prices for cars and trucks.

Q.—I wish to secure some maple syrup from Ontario. How should I do this?

A.—Consumers buying direct from producers must obtain purchase vouchers from their local ration board and mail these vouchers to the producer. It is illegal to send home ration coupons through the mail.

Please send your questions or your request for the pamphlet "Consumer's News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### Takes Entire Output

UNRA Buys All Horse Meat United States Packers Can Supply

Two million pounds of United States horse meat has been shipped to foreign nations but the United Nations Relief and Rehabilitation Administration has requests for 300,000 pounds more and has told packers it will take their entire output for 1946.

An UNRA spokesman estimated, however, that only about 100,000 pounds will be available.

The meat is purchased by the agriculture department for canning or curing in Federal-approved horse-meat processing plants. The ceiling price is 13 cents a pound, at the plant, for cured or pickled meat and 16 cents for canned.

UNRA, also is aiding European nations to replace the thousands of work horses killed during the war. The lack of them has delayed farming. Draft manure are being shipped abroad for breeding and as work animals.

### Adequate Supplies

Canada Has Ample Seed With Exception Of Red Clover

With the exception of Red Clover seed, Canada was assured of adequate seed supplies to provide for the 1946 seeding requirements, said Howard Gorsline, Senior Marketing Assistant of the Plant Products Division, Dominion Department of Agriculture, in a recent address at Toronto on "Requirements and Supplies of Seed in Canada." As in other years, Mr. Gorsline pointed out, there would be certain varietal shortages but the over-all supply of good quality seed oats, barley, wheat, corn, peas, beans and oil-bearing crops was satisfactory. At the same time, the supply of field root and garden vegetable seeds was more than adequate to fill the demand.

With regard to red clover seed, the Ontario and Quebec clover seed companies, however, encountered unfavourable harvesting conditions in the fall of 1945, with the result that the total crop amounted to about 3,000,000 pounds, or 40 per cent. less than the 1944 harvest. However, a carryover of more than one million pounds held by Canadian seed firms, and the movement eastward of a large proportion of the 1,200,000 pound crop of single cut red clover in Alberta would bring the total supply relatively close to providing normal Canadian requirements estimated at 6½ million pounds. Although not as desirable as the medium cut clover, the single cut clover from Alberta would fill a definite need in many districts.

#### THE ONLY CURE

In Mineola, N.Y., drunken drivers will be tested by making them say: "Around the rough and rugged rocks the ragged rascal ran." This is sheer foolishness. The only accurate test for alcohol is a blood-test, as employed in Norway. And in Norway, we should like to point out, drunken driving is virtually unknown because it is punished very severely.

**PENICILLIN FOR CATTLE** — Research scientists in Britain are using penicillin to cure dairy cattle of mastitis, one of their most serious diseases, reports the Manchester Guardian. The results are "almost too good to be true," says Prof. Scott Watson, chief education and advisory officer of the ministry of agriculture.

A medical man says that those who live longest are those who never do anything in a hurry. This should encourage parents who worry about the length of time it takes their children to go to bed.

## The Premier Beef Breed

The smoothness, quality, finishing properties and hornless character of Aberdeen-Angus cattle have commended the breed to beef producers in many lands. The breed can also serve you.

Mecca Pile Remedy No. 2 is for External Hemorrhoids. Sold in Jar, and is for external use only. Price 50c. Order by number from your Druggist.

### Value Of Tooth Health

Neglected Teeth May Lead To Chronic And Serious Disease

Tooth health has its effect on the entire body. A decayed tooth neglected may lead to chronic, serious or even fatal disease.

Such is the admonition in a payroll pamphlet insert—"See Your Dentist Twice a Year"—issued by the Industrial Division of the Health League of Canada.

The pamphlet states that authorities are of the opinion that carbohydrates seem to be the greatest source of tooth decay and should be used in strict moderation. On the other hand, uncooked foods such as green vegetables, raw fruits and dairy products, are good for the teeth.

"After diet comes exercise," says the Health League pamphlet. "Teeth need exercise to be healthy. Vigorous chewing does the trick."

Teeth should be brushed after every meal, the uppers downward and the lowers upward. The top surface of back teeth should be brushed vigorously, and the mouth should be washed out with clean water.

### Sounds Simple

Compact Appliance For Motor Cars More Efficient Than Chains

Some ingenious devices have been born of the war. Now comes a simple, compact appliance, in the form of a tire-track, that will pull a motor vehicle out of mud, ice or snow, where a chain would never prove efficient. It consists merely of seven small, but heavy, steel plates, all hooked together, that provide a two-foot runway. No jack is needed. Just drop it in front of a rear wheel and attach a cable to the bumper. When clear, you fold it up to a size no larger than a cigar box. Strange that, of all the motorists who have huffed and puffed, made the air blue as they stripped the gears of their cars, none has ever thought of it before.—Hamilton Spectator.

The jet-propelled P-80 Shooting Star could cross the Atlantic in a single morning.

## 2 WAYS TO SWEAR OFF

Are sleepless nights warning you to stop drinking tea and coffee? Has a friend told you how much better she has felt since she got rid of caffeine? And do you dread the idea?

### The Hard Way

Some snappy device like this handy gadget would do one way to crack down on your desire for tea or coffee. A bit impractical though!

### The Postum Way

Drink Postum instead! Such a delightful way. Delicious flavor, hearty warmth and aroma. And not a trace of caffeine or any other drug to upset nerves or digestion.

Easy to fix. Make Postum right in the cup, just by adding boiling water or hot milk. Costs less than 1¢ a serving.

**Postum**

A Product of General Foods

## PRIME MINISTER ANNOUNCES CANADIAN PROGRAM TO HELP RELIEVE WORLD FOOD SHORTAGE

OTTAWA.—Prime Minister Mackenzie King announced an unprecedented nine-point program aimed at restricting the amount of food served on Canadian dinner tables, maintaining war-increased farm production and providing more food for a starving world faced with disease and disorder.

Mr. King underlined the world food shortage with the statement that the general picture is "urgent and desperate".

The government will not recommend that farmers increase their wheat acreage over last year but will take steps to increase wheat shipments to starving European and Asiatic nations, the prime minister announced.

Chief among these steps will be the following:

A publicity campaign to urge Canadians to eat less wheat products, to strictly avoid waste, and to raise their own garden stuff this year as far as possible.

A cut of 50 per cent. in the amounts of wheat released to Canadian distilleries of alcohol as against last year's amounts.

A 10 per cent. reduction in the supply of wheat to be made available for domestic milling on the basis of purchases made for this purpose in 1945—estimated to make an extra two and a half million bushels of wheat available for export during the next six months without causing any serious domestic shortage.

"Special concessions to be made to farmers who have been holding wheat in storage on their farms 'because of reluctance on the part of farmers to take payment at this time'."

Whether this refers to farmers holding wheat in storage to avoid heavy income taxes at present, or to the 1946 ceiling prices is not made plain.

"Certain special arrangements," said the prime minister's statement, will be made "in respect of wheat deliveries made by farmers during the next few weeks in an effort to encourage the immediate marketing of the substantial quantities being held in storage on the farms."

"The details," went on Mr. King, "will be made known at an early date. Farmers are urged to make available wheat which they may be holding in storage on their farms."

In stating that the government does not recommend expansion of wheat acreage over the past two years, the prime minister's statement nevertheless said:

"We would not be assisting the world situation by concentrating on great additional increases of wheat acreage and thereby reducing the production of coarse grains needed for feed purposes. Coarse grains are already relatively in short supply. Further curtailment would restrict our livestock program."

### BECOMES POPULAR

TORONTO.—Introduced to Canada in the 1890's about 30 years after Imperial army officers brought the original game of poona from India to the British Isles, badminton has grown to be one of the most popular of Canadian sports.

### A NEW MEDAL

LONDON.—A medal for outstanding achievements in women's work—something like a feminist Nobel Prize—is to be presented each year by the committee for the celebration of international Women's Day.

## FIRST PARLIAMENTARY REVIEW OF VETERAN PENSION ACT IN FIVE YEARS EXPECTED SOON

OTTAWA.—The Pension Act, a 27-year-old piece of legislation that has piled up public obligations of roughly \$60,000,000 a year, will undergo its first parliamentary review in five years sometime after the opening of the second session of the 26th Canadian parliament.

At the end of January the pension liability for the First Great War stood at nearly \$37,000,000, representing payments to 90,000 disabled veterans and dependents. At the same time the liability for the Second Great War stood at more than \$22,000,000, representing payments to more than 48,000 persons.

The last parliamentary review of the act was in 1941 when, on the recommendation of the veterans committee, the Pension Act was amended to provide that veterans who served wholly in Canada or their dependents could get pension only if their disability or death arose out of or was directly connected with military service.

That is one of numerous points on which the Canadian Legion plans to attack existing legislation.

In the eyes of the Legion, it is

### CARRIED BY PLANE

Supplies For Exercise Muskox Were Dropped At Ferry River

CHURCHILL, Man.—Nine tons of supplies vital to Exercise Muskox have been dropped successfully at Ferry River—next objective of the moving force—by Dakota aircraft.

The supplies will provide the moving force—now in its 23rd day—with sufficient material to carry it to Cambridge Bay, 130 miles across the ice of Queen Maud Gulf.

Six Dakotas participated in the operation, four from this base and two from Yellowknife which arrived within a few minutes of each other despite "almost unbelievable" navigational difficulties.

Proximity of the magnetic pole, about 250 miles from the new base, makes the magnetic compass useless in the area.

### DECISION REACHED

India Is Breaking Off Trade Relations With Africa

NEW DELHI.—The government of India announced it will break off trade relations with the Union of South Africa that legislation aimed at demands for recall of the Indian high commissioner to the union.

The move followed failure of representations to Prime Minister Smuts of South Africa but such opposition to consideration must be given to demands for recall of the Indian high commissioner to the union.

The move followed failure of representations to Prime Minister Smuts of South Africa but such opposition to consideration must be given to demands for recall of the Indian high commissioner to the union.

The move followed failure of representations to Prime Minister Smuts of South Africa but such opposition to consideration must be given to demands for recall of the Indian high commissioner to the union.

### THE BRITISH LOAN

No Organized Opposition To Granting Credit Says U.S. Senator

WASHINGTON.—Senator Alben Barkley (Dem.-Ky.) said there is apparently "no organized opposition" to the proposed \$3,750,000,000 credit to Britain.

At any rate, he told reporters, the Senate Banking Committee has had no requests from such opposition to be heard. Senator Barkley is Acting Chairman of the group.

Estimating it will take some days to complete hearings, Senator Barkley said there are several bankers who want to be witnesses but that he understood they favored the loan.

### VALID IN APRIL

Three Of Combined Sugar-Preserve Coupons May Be Used

OTTAWA.—Three of the new combined sugar-preserves coupons will become valid during April—\$5 on April 4 and \$6 and \$7 on April 18, the prices board announced.

The announcement said this was not extra sugar but part of the yearly plan for sugar distribution. However, it added that validation of three coupons would give some relief during the current butter shortage by allowing consumers to buy additional preserves as spreads in place of butter.

### PLENTY OF LUMBER

OTTAWA.—There is no danger of lumber being a bottleneck in construction this spring, W. J. Leclair, lumberman's association, said. Log cutting reached an all-time high this winter and within the next month, or by spring at the latest, this lumber will reach the market.

## FIRST PARLIAMENTARY REVIEW OF VETERAN PENSION ACT IN FIVE YEARS EXPECTED SOON

OTTAWA.—The Pension Act, a 27-year-old piece of legislation that has piled up public obligations of roughly \$60,000,000 a year, will undergo its first parliamentary review in five years sometime after the opening of the second session of the 26th Canadian parliament.

At the end of January the pension liability for the First Great War stood at nearly \$37,000,000, representing payments to 90,000 disabled veterans and dependents. At the same time the liability for the Second Great War stood at more than \$22,000,000, representing payments to more than 48,000 persons.

The last parliamentary review of the act was in 1941 when, on the recommendation of the veterans committee, the Pension Act was amended to provide that veterans who served wholly in Canada or their dependents could get pension only if their disability or death arose out of or was directly connected with military service.

That is one of numerous points on which the Canadian Legion plans to attack existing legislation.

LATEST PORTRAIT OF PRINCESS ELIZABETH—Princess Elizabeth, who has been figuring more and more in London's social and state news, appears in this new study in a rose-colored lace and tulle picture dress.

### DROUGHT ENDED

AUCKLAND, N.Z.—The drought in Auckland province—the most severe since 1914—ended with a cyclonic storm which brought an average of three inches of rain. Autumn growth in this southern hemisphere dominion now is expected to be prolific in many districts.

### PLAN ACCEPTED

PARIS.—Lebanon has accepted the British-British schedule for evacuation by French and British troops it has been announced. British troops will leave the eastern Mediterranean mandate by April 30. The bulk of French troops will leave by Aug. 31 and all will go by April 1, 1947.

WOMAN WINS CONGRESSIONAL SEAT—Guy Mankin, husband of Helen Douglas Mankin (Dem., Ga.), fledgling congresswoman, proudly that his wife will do "a crackjack job" in Congress at Washington, D.C. His wife defeated 17 men in the race for the Georgia congressional seat. Rep. Mankin, who topped off her first day in Congress with a news conference, said she had always known she could be a lawyer, a member of the Georgia legislature, and finally a member of Congress. Mankin, a mechanical engineer, shares offices with his wife in Atlanta. Mrs. Mankin has served five terms, totalling 10 years, in the Georgia legislature. Photo shows Mr. and Mrs. Mankin in Washington, D.C.

CLASH WITH BRITISH TROOPS IN CAIRO—Spontaneous manifestation against the British in Egypt were climaxed with bloody fighting in Cairo streets. Demonstrations are tied up with unrest in the Moslem world, with the followers of Islam, who worship in mosques are shown above, resenting intrusion of non-believers, particularly those of Jewish faith. Miling mobs in Cairo streets demand evacuation of Egypt by British.

## UNITED STATES WANTS CASE OF IRAN BROUGHT UP AGAIN AT THE COMING U.N.O. MEETING

WASHINGTON.—The United States government will ask the United Nations security council at its forthcoming New York meeting to re-open Iranian charges filed against Russia unless Iran itself takes such action, it was learned.

Top American officials have decided that the situation which has developed in the middle eastern country must be brought before the council again, as it originally was during the London meeting, by the United States if necessary.

The issues involved principally are these:

1. Iran's original charges that Russian troops had violated Iranian sovereignty by denying Iran's forces the right to free movement in their own country.

2. The failure of the Russians to withdraw their troops from Iran by March 2 in accordance with an Anglo-Russian-American agreement with Iran.

3. The failure of the Iranian government and the Soviet government to settle their troubles by direct negotiation.

Some diplomats consider the questions to be of such magnitude that they could virtually make or break the prestige of the security council. Negotiations at an early date, privately expressed, is that by the time the security council meets conditions inside Iran may have developed to the point where the Iranian government itself will be unable to act freely or press its own interests before the United Nations body.

When the case was brought up in London it was the subject of a lengthy debate which ended with a council decision that the best settlement would be made if Russia and Iran would work out directly a satisfactory agreement between themselves. This procedure was accepted on the understanding it would not prejudice the rights of the council to go into the matter further if conditions warranted.

Council members in this connection made it clear that they expected a report on the progress of the direct negotiations at an early date.

Thus, if the United States has to initiate UNO action it will ask for a report. Russia or Iran or both will be called upon to give some sort of accounting of the failure to reach an agreement.

### ACTION DELAYED

OTTAWA.—Prime Minister Mackenzie King announced that action under orders-in-council for the deportation of some Japanese in Canada will be suspended pending the outcome of any appeal to the privy council from a supreme court judgment confirming the government's authority to make the deportation. Mr. King said the government would facilitate any appeal to the privy council.

## EXPERTS ESTIMATE FAMINE WILL TAKE MANY MORE LIVES THAN WERE LOST DURING WAR

### SERIOUS CHALLENGE

Scientists Concerned More With Rocket Projectile Than Atomic Bomb

CALGARY.—Protection against rocket projectiles which might conceivably be propelled thousands of miles from an enemy country is the most serious challenge to scientists concerned today with defensive instruments of war, according to Dr. C. J. Mackenzie, president of the National Research Council at Ottawa.

Dr. Mackenzie accompanied Reconstruction Minister C. D. Howe on the latter's visit to the city. In an interview he said it would be relatively easy to detect the presence of atomic time bombs placed in any city by enemy agents. It would also be possible to detect the approach of enemy planes bearing atom bombs in time to take appropriate combat measures.

But the V-2 type of rocket weapon which travelled so fast was a much more difficult weapon to counter.

### JUST MECHANICAL

Fire On Aircraft Carrier In British Port Not Incendiary

DEVONPORT, Devonshire, England.—Crew members and dock firemen battled a fire which broke out in the boiler room of the aircraft carrier, *Victorious*, berthed here.

The fire, coming after a series of such outbreaks in British ports, aboard liners and cargo vessels, was under control in less than an hour. Cause of the outbreak was considered purely mechanical and was the subject of technical investigation.

### NEW NAVAL STAFF CHIEF

Appointment of Rear-Admiral Howard Emerson Reid as chief of the naval staff, and his promotion to vice-admiral, has been announced by Hon. Douglas Abbott, minister for the navy. Admiral Reid, former naval attaché, has served in warships of many different types; many of them, including the *Warspite*, while he was on loan to the Royal Navy. He was born at Portage du Fort, P.Q.

### OUT OF MUKDEN

Red Army Has Left And Chinese Nationalists Take Over

CHUNGKING.—The Red army evacuation of Mukden was reported completed and a Central News agency dispatch said Chinese Nationalist forces had taken over the entire Manchurian city.

Central said Maj.-Gen. Andrei Kovton-Stankovitch, the Soviet commander in charge of the city March 12 formally ending the Russian occupation. The Nationalist 52nd army moved in immediately to take over garrisoning of the largest city in Manchuria, the news agency said.

A government spokesman said there were no indications that the Red army's departure from Mukden was the start of a general withdrawal from Manchuria. He said the Russians had not yet set a date for that.

Chinese newspapers reported that three additional Nationalist armies will be sent to Manchuria. The vanguard of one army left from Shanghai.

### MORE PROTECTION

LONDON.—The Daily Telegraph said that Foreign Secretary Bevin's personal bodyguard of two detectives is to be increased after the superintendent in charge of the special branch, which provides the detectives, has studied reports of activities of "underground" political movements.

## Bellevue Seeks Information On Artificial Ice

Meeting Held Last Week; Secretary Appointed; Bellevue Lions Offer \$1,000 to Start Fund.

Spurred on by the success of their young hockey players Bellevue organizations are not allowing any grass to grow under their feet this year and already have held a meeting to talk over an artificial ice project. The arena has been kept in good condition and little expense is anticipated in preparing the building for the plant.

A secretary has been appointed to correspond with cities and towns in Alberta having experience with artificial ice. It is proposed to obtain information on both the coil and blower systems, cost of installation and maintenance.

Should the artificial ice project get the go ahead signal once all information has been secured and

discussed then the Bellevue Lions will start the artificial ice fund rolling with a \$1,000 donation.

Section 4. CANADA Province of Alberta. Notice is hereby given of the following application to the Provincial Secretary under the provisions of the CHANGE OF NAME ACT:

I, Benigo Fontana, of the Town of Coleman, Alberta, Coal Miner, hereby make application under the provisions of the CHANGE OF NAME ACT for a change of name as follows.

From my present name BENIGO FONTANA to BENJAMIN FONTANA.

In witness whereof I have hereunto set my hand this Eleventh day of March, A.D. 1946, at Coleman, in the Province of Alberta.

BENIGO FONTANA.

Signed by the above named applicant in the presence of FRED ANTROBUS.

## Mr. & Mrs. Wm. Gate To Celebrate 25th Anniversary

To Combine Celebration With That Given Their Newly Married Daughter and Husband.

Sunday, March 17, marked the 25th wedding anniversary of Mr. and Mrs. William Gate. The celebration, however, to mark such an important milestone in their married life is not to be marked until their daughter, Dorothy, who is being married today at Calgary to Mr. John Henry McGregor, returns home with her husband for a visit to the parental home. At that time Mrs. Gate hopes to celebrate both happy occasions in one.

It was March 17, 1921, that Mrs. Gate, nee Miss Carrie Machin, daughter of Mr. Wm. Machin and the late Mrs. Machin, was married in St. Alban's church to Mr. Wm. Gate. Attendants were Mrs. Richard Tiffin, who resides on Fifth

street, and our own genial postmaster, Frank Graham. The minister was Rev. Major Walker, who a few years later left for Britain, where he now resides. Mrs. Gate has maintained her interest in church work and has been a staunch supporter of St. Alban's. Bill is now a successful business

### Provincial Government Wages Successful War on Mankind's Oldest Scourge

"The battle against Tuberculosis is not only a doctor's affair; it belongs to the entire public." — Sir William Osler

Recognizing this, the Government in co-operation with the Alberta Tuberculosis Associations has enlisted the people of the province in the fight. With the result: Tuberculosis is fighting a losing battle in Alberta. True, it is still a stealthy, insidious killer, but death rates are sharply declining, and victory is in sight. Now, with the knowledge we have and the weapons at our command, this disease which has claimed more lives than all the wars in history, can and will be conquered within a generation.

### Christmas Seals Fight Tuberculosis

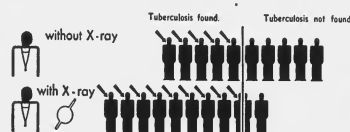

In over 200,000 X-Ray examinations conducted in Alberta, about 400 active cases have been found. Many of these have now completed the cure and are back at work. Many have been helped back into jobs by the T.B. Associations' Rehabilitation Program. Full treatment is FREE as Alberta is one of the two provinces in Canada that assumes this expense.

### HERE ARE THREE GOOD REASONS WHY YOU SHOULD HAVE A CHEST X-RAY AT THE EARLIEST OPPORTUNITY

1. If it shows you have a healthy chest, that is good news.
2. If it shows you have already fought a round with T.B. germs and won, that is good news.
3. If it shows you have T.B. in early symptomless stage, that is good news, too, because when T.B. is found early the chances for complete recovery are excellent, provided treatments start at once.

### X-Ray Helps to Detect Tuberculosis

Early discovery means early recovery, and the X-RAY reveals the disease in the earliest stages.

### MOBILE UNITS EXAMINE CITIZENS IN ALL PARTS OF THE PROVINCE

About 2 in every thousand people will have active T.B. without knowing it. These people are the "missing casualties" and the unconscious spreaders of the disease. Two Mobile Chest X-Ray units, bought by Alberta Tuberculosis Associations with Christmas seal funds, and operated by the Alberta Government Department of Health, travel constantly throughout the province to bring free diagnosis to the people. Even the most remote areas are covered by a unit equipped with its own portable generator for power supply. Thus, with the active support of the public we can see VICTORY in our time over T.B.

# Propose To Start Flying Club In Coleman

A. L. McRitchie, of Chinook Flying Club, to Address a Public Meeting; Will Bring Planes to Local Air Port.

The Chinook Flying Service of Calgary with the co-operation of the local Lions will endeavor to organize a flying club in Coleman.

Mr. A. L. McRitchie, manager of the Chinook Flying Service proposes to obtain use of the landing field at Sentinel as a scene of operations for the club.

A post-war "Aerona-Champion" light plane will be stationed here as soon as facilities are prepared. The "Aerona-Champion," a two-seater, together with a twin-motored Cessna, will handle both elementary and more advanced training. Students will be offered ground school instructions covering all subjects required in the obtaining of a Private Pilot License. Dual instruction and solo flying time will be completed at a rate most suited to

the student pilot.

Mr. A. L. McRitchie will be the guest of the Lions on April 1 at 8 p.m. in the club room of the Grand Union hotel. He will speak before a public meeting of all those interested in obtaining further information about the flying club.

All young people, men or women, are urged to come out to hear Mr. McRitchie. You place yourself under no obligations by doing so.

For as little as you spend on tennis, hockey or curling you can join in the most exhilarating sport of all—light-plane flying.

## Ladies Auxiliary B.E.S.L. Held Anniversary Banquet

On Friday evening the Ladies Auxiliary, B.E.S.L., held a banquet in the 100F hall, marking the 12th anniversary of the founding of the Auxiliary in the Dominion. To mark the occasion, invitations were extended to all Coleman's returned veterans, their wives and sweethearts and approximately 100 in all were in attendance.

Legion president James Lowe

was chairman and during his remarks touched on the arrival of Mrs. George Burtuk in their midst and at the community's pleasure in having her here.

Jasper Jones, recently returned from overseas, was also present and voiced his pleasure at once again being home and among his friends.

The banquet was a grand success and thoroughly enjoyed by all. It had been intended to have a dance, but due to some misunderstanding, the orchestra failed to make its appearance and by necessity the festivities were cut short.

People shop where they are invited—that's why it pays to advertise.

## Eastern Star Celebrated 25th Anniversary

Had Official Visit From Worthy Grand Matron and Were Guests to Visitors From Pincher Creek and Bellefleur Chapters.

On Thursday, March 21, mem-

bers of Minerva Chapter, OES, No. 41, celebrated the local chapter's 25th anniversary.

To add additional color to the occasion the chapter received its official visit from the worthy grand matron, Mrs. Alice Sparling, who was accompanied by a past grand matron, Mrs. Grace Hughes. In addition there were a number of visitors present from the Bellefleur chapter and from Pincher Creek. A new candidate, Mrs. Charlotte Lonsbury, was initiated into the chapter during the business session.

Following the business session the honored guests, visitors and members sat down to a banquet on beautifully decorated tables, the work of past worthy matron Mrs. Stuart Murdoch. At the head table was a handsome birthday cake, also the handiwork of Mrs. Murdoch. The entertainment program heard solos sung by Mrs. Sam Bannan and Mrs. Walter Pettifor.

That afternoon worthy matron Mrs. James Park entertained at afternoon tea at her Third street home in honor of Mrs. Sparling and Mrs. Hughes. Members from Minerva chapter and Bellefleur, chapter numbering approximately 25 attended.

# What's New at Metropolitan?

**T**HERE ARE many items of good news for policyholders in the 1945 record of the Metropolitan Life Insurance Company.

Payments to policyholders and their beneficiaries in Canada and the United States reached a new all-time high of \$623,000,000. Mortality among policyholders, excluding war deaths, was the lowest on record. The yield on the Company's investments followed the general trend and declined somewhat. The Company had asset gains which made it possible to revise policy and annuity reserves so as to reflect lower interest earnings. Scales of dividends to policyholders were maintained, and in some cases slightly increased.

Unassigned surplus funds at the year end amounted to \$448,600,000. In addition the Company had special surplus funds of \$109,400,000, of which \$95,100,000 represented a special reserve for possible loss or fluctuation in the value of investments and \$14,300,000 a Group Insurance reserve for epidemics, etc. These funds represent an extra cushion of safety for policyholders.

In its report to policyholders in Canada and the United States for 1945, Metropolitan provides answers to many of the questions a policyholder would be likely to ask if he could make a personal visit to the Company. Among questions answered, for example, are . . .

Were there many extra claim payments last year due to the war?

Would longer life for policyholders reduce the cost of Life insurance?

In what types of investments did the Company put its money?

In addition to answering these and many other questions, the report gives a financial summary of the Company's operations during 1945. Whether or not you are a policyholder, you will find this report interesting and informative. To get a copy, just write to the Canadian Head Office, Ottawa, and ask for the Company's annual report entitled, "What's New At Metropolitan?"

## BUSINESS REPORT FOR 1945

### OBLIGATIONS TO POLICYHOLDERS, BENEFICIARIES, AND OTHERS

Policy Reserves Required by Law . . . . .	\$6,400,802,374.47
This amount, together with future premiums and interest, is required to assure payment of all future policy benefits.	
Policy Proceeds and Dividends Held at Interest . . . . .	342,073,866.83
These are funds left with the Company to be paid in the future.	
Reserved for Dividends to Policyholders . . . . .	123,338,706.00
Set aside for payment in 1946 to those policyholders eligible to receive them.	
Other Policy Obligations . . . . .	67,108,358.06
Claims in process of settlement, estimated claims not yet reported, premiums received in advance, etc.	
Taxes Accrued . . . . .	20,019,592.00
Includes estimated amount of taxes payable in 1946 on the business of 1945.	
Contingency Reserve for Mortgage Loans . . . . .	21,000,000.00
Miscellaneous Liabilities . . . . .	29,587,557.57

TOTAL OBLIGATIONS . . . . . \$7,003,930,454.93

### ASSETS WHICH ASSURE FULFILMENT OF OBLIGATIONS

Government Securities . . . . .	\$3,901,918,692.03
Canadian and United States.	
Other Bonds . . . . .	1,729,338,186.57
Provincial, State, and Municipal . . . . .	\$ 92,780,754.21
Railroad . . . . .	384,361,368.30
Public Utilities . . . . .	656,189,313.34
Industrial and Miscellaneous . . . . .	396,006,750.12
Stocks . . . . .	114,550,034.03
All but \$4,076,225.49 are Preferred or Guaranteed.	
First Mortgage Loans on Real Estate . . . . .	870,363,554.77
Farms . . . . .	\$ 86,606,570.02
Other Property . . . . .	783,756,984.75
Loans on Policies . . . . .	343,512,038.44
Made to policyholders on the security of their policies.	
Real Estate Owned . . . . .	259,557,120.46
Includes \$39,500,334.74 real estate under contract of sale and \$147,436,299.08 Housing Projects and real estate for Company use.	
Cash . . . . .	175,687,154.11
Deposited in banks, in transit, or on hand.	
Other Assets . . . . .	167,070,489.96
Premiums due and deferred, interest and rents due and accrued, etc.	

TOTAL ASSETS TO MEET OBLIGATIONS \$7,561,997,270.37

Thus, Assets exceed Obligations by \$558,066,815.44. This safety fund, representing about 8% of the obligations, serves as a cushion against possible unfavourable experience and gives extra assurance that all policy benefits will be paid in full as they fall due. This fund is made up of:  
A Special Surplus Fund (including \$95,112,000.00 for possible loss or fluctuation in the value of investments) . . . \$109,422,000.00  
Unassigned Funds (Surplus) . . . . . \$448,644,815.44

NOTE:—Assets carried at \$360,747,351.78 in the above statement are deposited with various public officials under requirements of law or regulatory authority. Canadian business entered in this statement is reported on basis of par of exchange.

### HIGHLIGHTS OF 1945 OPERATIONS

Life Insurance in Force, End of 1945 . . . \$31,261,909,317	Paid-for Life Insurance Issued During 1945 . . . \$2,143,423,150
Amount Paid to Policyholders During 1945 . . . \$623,443,185.86

EDWIN C. McDONALD, Vice-President in Charge

## SOME FACTS ABOUT METROPOLITAN'S OPERATIONS IN CANADA

### New Life Insurance issued

In 1945, Canadians from all walks of life took out \$172,446,469 of Life insurance with the Metropolitan.

### Life Insurance in Force

At the end of 1945, a total of \$1,775,471,638 Metropolitan protection was owned in Canada by 2,300,000 policyholders. Of this amount, 57% is owned by Ordinary policyholders, 9% by Group policyholders and 34% by Industrial policyholders.

### Total Investments in Canada

The Company's total investments in Canada amounted to \$425,255,484 at the end of 1945. Of this amount, 49% is in Canadian War and Victory Bonds. Other investments are in provincial and municipal bonds, securities of railroads, industrial plants, public utilities and mortgages.

### Payments to Policyholders and Beneficiaries

Metropolitan paid out in 1945 to its Canadian policyholders and their beneficiaries \$32,328,059 in death claims, matured policies, dividends and other payments. Of this amount, 66% was paid to living policyholders.

### Health and Welfare Work

During 1945, a total of 219,299 nursing visits were made to Industrial and Group-insured Metropolitan policyholders in Canada. In addition, over 1½ million pamphlets on health and safety were distributed by Agents last year.

The total amount the Metropolitan has paid to Canadians since it entered Canada in 1872, plus the amount now invested in Canada, exceeds the total premiums received from Canadians by more than \$270,000,000.

## School Board To Sponsor Army Cadet Corps; Stern Measures to be Taken to Curb Truency

Attendance Down in February Due to Colds; Epidemic of Itch Found Among School Students. Regular meeting of the school

board was held on Sunday morning in the Board room. Present Chairman Evans, Trustees Ash, Holly and Vasek. Present were Captain J. M. Kerr

and Sergeant H. L. Dyer, of headquarters MD 13. Capt. Kerr sought the co-operation of the Board in sponsoring an Army Cadet Corps, which would absorb youngsters between the ages of 12 and 17 years. He stated he was not connected with the BCEME Workshop which was recently organized in the Pass. During the past week he had organized a cadet corps at Bellevue, which included 100 boys, and at Blairmore he had organized a sec-

ond corps which had enrolled 65 youths.

The Cadet Corps, he stated, was controlled by a directorate at Ottawa and was of a permanent nature. There were 125,000 cadets in the Dominion. In Alberta in 1945 there were 2,300 cadets. Today there were 3,700.

The program was drafted in such a manner that it would keep boys busy and would do much to eliminate as much as possible juvenile delinquency. He did not want to make boys soldiers, but the program definitely would stimulate them physically, mentally and spiritually. The course included (1) Citizenship; (2) health, PT, program and games; (3) drill, taught to walk properly which would serve them throughout life and taught to work as a team; (4) shooting program, taught how to shoot and observe the rules of safety. There would be fees, ammunition, rifles would be supplied to the corps and cadets would have the opportunity of entering provincial and Dominion competitions. Prizes ranging up to valuable watches were given in the big competitions. (5) first aid; (6) map reading; (7) signalling program. Here there was the possible chance that walkie-talkie equipment would be given the corps along with wireless equipment; (8) combustion engines; (9) woodcraft; (10) fieldcraft. The program was designed to develop citizenship and leadership.

There would be an annual Cadet camp. This summer the camp would be at Banff. The cadets would be under constant supervision and would receive any medical attention required.

Should the Board wish to sponsor the Corps all that it was required to do was sign a bond, this to give assurance that the equipment which would be supplied would not be damaged by vandalism, and buy uniforms. The uniforms cost \$7.50 each, the cost to be spread over a 3-year period.

In return the sponsors would receive \$1.25 back per year per member. For every senior cadet enrolled the sponsors would receive \$1, and 50¢ for every junior. \$2 per year was awarded for the upkeep of each musical instrument the cadet band may possess.

Following the officers' departure from the Board room, the Board members discussed the proposal in detail and by unanimous vote decided to sponsor the Corps.

In addition to guns and ammunition, mattresses for PT will be furnished and a rifle range will be set up at the expense of MD 13.

Principle Hoyle revealed in his report that during February attendance had fallen to 90% at Central and high school, and to 88% at Cameron school. He attributed the low average to colds during that month.

His report touched on an epidemic of itch which had been found among some school children. They had been sent to the doctor who in turn had ruled that the itch was not contagious. The matter was given to the Management committee.

The subject of truency was debated at length. It was revealed that some students, particularly girls, were coming to school in the morning, being registered as present and on the first opportunity had quietly left the classroom and went to a downtown restaurant where they had spent their time. One girl was reported to have done this for two weeks. Several had started to make this a practice and Constable Antle had been asked to intervene.

It was also suspected that some students had returned their monthly report books to the teachers with forged signatures and this is to be investigated by the Board. The suggestion that the date when report books are to be given students be published in The Journal met favor with the trustees as this would notify parents that junior should have his report book home with him on a certain date.

The Board gave sanction to Principal Hoyle to suspend any student found guilty of missing classes between the hours of 9 a.m. to 4 p.m. and the student would be refused admission to classes until his case had been reviewed by the Board. The practice of students slipping away during a spare and failing to return for certain classes is becoming too common and has to be curbed.

A letter was received from Coleman Lions club asking the co-operation of both the Board and Principal Hoyle in reporting students requiring glasses. Sight conservation is probably the most important activity among the many in the Lions club. The Lions will receive the necessary co-operation.

## THE NEED IS STILL GREAT

The work of the Red Cross is never finished. Aid must still be carried to the victims of war in many stricken countries.

But the present membership campaign in Alberta is aimed at making the Red Cross strong to help ourselves—to give treatment and care and hope to our own crippled children, to aid our veterans where necessary, to bring training in first-aid and home nursing and safety to our rural communities and to the 42,225 Junior Red Cross members in our schools, and to provide relief and comfort to victims of disaster within our province.

A strong Red Cross is possible only with a strong membership. Lend your support to this great work.

JOIN THE RED CROSS

In the name of all the unfortunate we urge you—

"Boy—am I glad I saw my Bank Manager!"

"Betty and I were worried... we were urged to invest our savings, including my service gratuities, in what we thought might be a good business proposition. My bank manager showed me why it wasn't so good... maybe saved us from losing all we have!"

If you are an ex-serviceman, getting re-established in civilian life you will find your local Bank Manager a useful man to consult.

He is familiar with local business conditions and opportunities; he is glad to give helpful information to any veteran who comes to see him.

He knows the hopes and fears, joys and worries of small business men, wage-earners and salaried workers, because he has been talking to them over many years—considering their problems, lending them money, rendering them service in many ways. He'll be glad to do the same for you.

Why not talk to him at the first opportunity? Veterans all over Canada are saying: "Boy—am I glad I saw my Bank Manager!"

## Jobs Follow Organization

But Employers and Workers Must Assist

During the war organization of manpower was made possible through co-operation of employers and workers.

This co-operation is no less necessary to assist in organizing the employment market during the present critical period.

Some manpower controls still remain. These are still law. They are aimed at assisting in organizing the employment market.

Remaining controls are designed to help employers and workers—and actually require only minor assistance from the public.

YOU ARE URGED TO COMPLY WITH THE FOUR CONTROLS WHICH REMAIN:

- 1—Employers MUST notify the National Employment Office of any need for workers, as soon as that need is known.
- 2—Where employers engage workers outside the National Employment Service they MUST notify the nearest NES Office within three days, that an employee has been engaged. (Form NSS 312 is provided for this purpose.)
- 3—Unemployed workers seeking employment MUST register with the National Employment Office if unemployed for seven consecutive days.
- 4—Generally speaking, any employer or employee MUST give seven days' notice to the other party of any intention to terminate employment. (Form NSS 120 is still required.) Exceptions may be learned from the nearest NES Office.

The partners to industry—employers and employees—should help the National Employment Service to promote a high level of employment by complying with these simple rules.

Only with public support can an employment service give full assistance to the community.

Make full use of the Local Office of the National Employment Service. It is there to serve your needs, and those of the entire Community.

## MISCELLANEOUS SHOWER

A miscellaneous shower was held on Monday evening in the IOOF hall in honor of Mrs. Steve Snider, nee Lydia Tyberghien.

Whist and bingo were played. Whist winners were Mrs. B. Cherneski, Mrs. H. Willetts and Mrs. J.

Allan Jr. Bingo winners included Mary Ledie, Mrs. G. Ford and Gladys Fry. The soap contest was won by Mrs. A. Fry.

A delicious luncheon was served by the hostesses who included Mrs. L. Jaworsky, Maureen McLellan and Kathleen McLellan.

## 20 Improvements In The 1946 Ford V-8 Engine

1. New fixed connecting rod bearings—for greater durability.
2. New aluminum alloy pistons—for improved performance.
3. New crankshaft—with built-in traps to catch injurious sediment.
4. New high pressure, bigger capacity oiling system—for longer engine life.
5. New positive rear main bearing oil seal—to conserve oil.
6. New crankcase ventilation system—with air filter on breather pipe.
7. New improved distributor—waterproof, for greater performance.
8. New neoprene covered ignition wiring—oil, heat and ozone resistant.
9. New balanced carburetion—better economy and performance.
10. New oil bath air cleaner—standard equipment for longer engine life.
11. New engineered water pumps—leakproof.
12. New cartridge type oil filter—standard equipment, reduces engine wear.
13. More efficient fan—for better cooling.
14. New aluminum timing gear—longer life, quiet.
15. New voltage control regulator—newly engineered for increased efficiency and durability.
16. Controlled cylinder wall finish—longer life for pistons and cylinder bore.
17. Valve springs shot blasted, and rust-proofed—for longer life.
18. Hard alloy steel valve seat inserts—for both intake and exhaust valves reduce engine maintenance.
19. Calibrated radiator pressure cap—for greater engine efficiency at high temperatures without loss of coolant.
20. New front motor supports—made from oil resistant rubber; longer life.

### ... V - ...

#### SPRING

Spring officially arrived today, March 21. Up to the present one can describe it as an early spring as the weather during the past couple of weeks has been quite mild. Last Tuesday night there was a light snowfall, but by noon Wednesday it had practically all disappeared.

The new car licenses have made their appearance, the first robin and blue bird has been officially reported, the kids have been busy playing "dubs" for some time now, so we can safely assume that Spring has actually arrived.

## METROPOLITAN LIFE CONTINUES PROGRESS IN 1945

Ottawa, Mar. 21.—The payment during 1945 of a total of \$623,443,186 to its policyholders in Canada and the United States marked the largest sum paid in any one year by the Metropolitan Life Insurance Company to living policyholders and their beneficiaries, according to the Company's Annual Statement released today. Sales during the year of new paid-for life insurance increased over the previous year and totalled \$2,143,423,150. The Company's Life Insurance in force has now reached the total of \$31,261,969,317. In addition the Company has Accident and Health Insurance in force providing a principal sum benefit of \$1,819,263,031 and a weekly indemnity of \$29,405,941.

Scales of dividends to policyholders have been maintained, the report points out, and in some cases have been slightly increased. Set aside for dividend payments in 1946 was an amount of \$123,338,706. An extra cushion of safety to policyholders is represented by unassigned surplus funds of \$448,644,215, and a special reserve of \$109,422,000 for a possible loss or fluctuation in the value of investments.

EDWIN C. McDONALD

Vice-President in Charge of the Canadian Head Office, who reports a total of \$125,255,434 invested in Canada by the Metropolitan Life Insurance Company at the end of 1945.

Concerning the operations of the Company in Canada, the report shows life insurance in force here of \$1,775,471,638 owned by almost 2,300,000 policyholders in the Dominion. It is pointed out by Mr. McDonald that approximately one out of every five persons in Canada is insured with the Metropolitan.

Mr. McDonald directed attention to the fact that the total amount the Metropolitan has paid to Canadians since it entered Canada in 1972, plus the amount now invested in Canada, exceeds the total premiums received from Canadians by \$15,450,000.

People shop where they are invited—that's why it pays to advertise.

## MRS. ARTHUR JONES REPORTS FIRST BLUE BIRD

On Wednesday morning while looking out the kitchen window of her Seventh street home, Mrs. Arthur Jones spied a blue bird, the first reported to The Journal this season, flitting about a tree in the yard. It appeared to be giving its nest of last year the once over. Its mate was nowhere in sight, but undoubtedly was nearby.

If a dollar could write a diary...

"DEAR DIARY," the dollar would write, "here I am in a great big bright factory, my ears almost deafened by the roar of machinery which turns out shining new appliances that thousands of Canadian housewives were waiting for all through the war."

"I know I'm just one of millions of dollars which the Life Insurance companies are investing now in all sorts of civilian post-war developments... public utilities, power resources, railways, hotels, office buildings, and a whole list of projects which are pressing needed to get us all back to a normal peacetime footing."

"I came from a country bank, as part of somebody's Life Insurance premium. It's wonderful to feel that I'm doing something socially useful for the future welfare of my country."

**25¢** This portion of every dollar of Life Insurance funds is invested in public utilities, industries, etc., and is hard at work in every province creating work and prosperity. The remaining 75 cents are invested in government and municipal bonds, securities and mortgages, etc., yet these funds are always available for the immediate protection of four million policyholders in time of need.

L1015

It is good citizenship to own

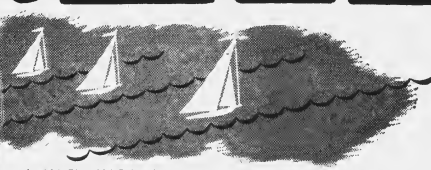

A Message from the Life Insurance Companies in Canada.

# THAT NEW FORD'S COMING with a Smooth New Ride!

There's a Ford in your future!

THAT GREAT DAY is getting closer when the "Ford in your future" will arrive in your town. And you'll discover some wonderful things have happened to your favorite low-priced automobile since last you met. The big, handsome 1946 Ford V-8 brings you more actual advancements than many pre-war yearly models! The ride is new and restful... thanks to new multi-leaf, slow-acting springs and new stabilizers. You'll relax as you ride in the roomy 1946 Ford... and travel so quietly, so smoothly... over back roads or boulevards. The new oversize hydraulic

brakes will ease you to quick, quiet stops at the merest touch of your toe.

Yes, it's a big-value car this new Ford... engineered in the true Ford tradition to deliver years and years of happy, low-cost motoring. And that new 1946 V-8 engine is a story in itself, with no less than twenty basic improvements to combine flashing 8-cylinder performance with downright economy on gas and oil.

The new Ford V-8 will be a beauty any way you look at it. And you'll be able to look it over very soon at your dealer's.

WORLD HAPPENINGS  
BRIEFLY TOLD

The United Kingdom will spend £25,000,000 (\$111,250,000) on its secret service in 1946 against a token £100 (\$445) in 1945.

The United States war department announced an intention to make a fuller use of Negro manpower both in the peacetime regular army and in the event of a future war.

Lord Nuffield, British industrialist, who was recently in Capetown on his way to Australia, said Britain will soon be able to supply the dominions with a steady flow of goods.

In shirt sleeves and apron, a porter at a Glasgow auction bought a 10-stone diamond necklace for £5,100. He was buying for a Glasgow man who wanted to remain anonymous.

Recent foreign economic administration surveys indicate that millions of Europeans are living far below the minimum of 2,000 calories a day.

Bertram C. Webber, 87, for many years associated with the Dominion Meteorological Bureau, died at his Toronto home. He joined the meteorological staff under Sir Frederick Stupart.

The British taxpayer can expect little relief from Hugh Dalton, chancellor of the exchequer, in his April budget. Civil and defence estimates indicated 1946-47 government outlay will be about £4,000,000,000.

Bermuda girls, white or colored, may apply for training in England for nursing. Details of the scheme are announced in the colony for a training period of three years or more and applications are invited.

Col. Arthur Welsh, minister without portfolio in the Ontario Government and minister-designate of the new Ontario Tourist Department, said that 20,000,000 United States residents are expected to visit Canada this year.

## Weight In Diamonds

Aga Khan Principal Figure In Colorful Ceremony At Bombay

In a setting of fabulous Oriental splendor, the Aga Khan seated himself on a specially constructed scale before 60,000 of his followers and watched solemnly while his weight was matched, pound for pound, in diamonds. He weighed 243½ pounds.

With legendary generosity, quartets of industrial diamonds and handfuls of glittering gem stones were deposited upon the scales until there were 243½ pounds of them, balancing the weight of the spiritual leader of the Ismaili Moslems. From his gold-brocaded chair on the scales the Aga Khan bestowed benedictions and blessings.

Biggest diamonds of the lot was a sparkling 32 carat polished blue gem which the owner valued at \$200,000. The diamonds will be bought mostly by Princes and Rajahs and the Aga Khan receives a cash value of roughly \$2,000,000 to be used for Ismaili welfare and for benevolence among the poor.

The ceremony, honoring his 60th year as head of the sect, was financed by followers.

Rulers and moguls—and 10 years ago the Aga Khan himself—have been weighed in gold, but his followers averred this was the first time anyone had been weighed in diamonds.

The ceremony climaxed a week of celebration of the ruler's leadership but there was a deeper significance. It was the greatest moment in his family history since his grandfather, more than 100 years ago, was driven from Persia (Iran) after a quarrel with the Shah, for whom he had been a favorite warrior leader. India has been Ismaili headquarters since that quarrel.

The Iranian consul and an Ismaili delegation from Iran were present at the ceremony and joined the crowd in prayer for the Aga Khan, chanting "Allah ho akbar"—"Allah is great."

## WILLING TO TAKE CHANCE

The smiling, confident young man entered a New York bank. He stepped up to the manager's desk.

"Good day, sir," he announced. "Has your bank any need of a highly intelligent, college-trained man?"

The manager poised a pencil over a form. "Your name?"

"Gardwell Lewerman."

"Experience?"

"Just out of college."

"I see said the manager. "And what kind of a position are you seeking?"

"Well," mused the young man. "I want something in the executive line. A vice-presidency, for example."

The manager put down his pencil. "I'm really very sorry," he said, sarcastically, "but we already have 12 vice-presidents."

The young man waved a hand. "Oh, that's all right," he stated, happily. "I'm not superstitious!"

Carrots, beets, and other vegetables are grown on the sod-covered roofs of their cabins by Alaskan sourdoughs.

The mongoose, killer of slow-moving cobras in India, cannot cope with the faster poisonous snakes in the new world.

**ARMY CHAMPIONS**—Winners of the Military District No. 12 hockey championship, was the entry from No. 12 District Depot, Regina, shown above. The Depot squad nosed out Maple Creek by two straight wins in the finals played in Regina. Back row, left to right: Capt. S. Niven, Regina; manager, J. R. Oberhoffer, Regina; W. J. Huggins, Regina; A. Laslo, Regina; J. G. Roseberry, Yorkton; G. E. May, Regina; G. D. Menzies, Regina and Prince Albert; M. P. Kelly, Kerrobert; R. Syrette, Crutwell. Front row, left to right—A. Klein, Killaly; P. J. Seiferling, Sedley; R. Geres, Gravelbourg; S. F. Andrunyk, Saskatoon; and G. J. Bannon, Winnipeg.

GARDEN  
NOTES

## Main Vegetable Groups

Vegetables divide themselves into three main planting groups. In the first are the hardy things, those one plants just as soon as the soil can be prepared regardless of the weather ahead. These will stand lots of frost and in fact for best results they must make their first growth while the weather is still cool and wet.

In this class are peas, the first onions, carrots and beets, radish, spinach and lettuce. These can be planted just as soon as the soil has worked up nicely and is no longer muddy. Experienced gardeners make a practice of sowing beets, radish, spinach, etc., at least three times, about two weeks apart.

Then there are the semi-hardy things like potatoes, the first corn, beans and cabbage. These will stand cool weather but very little frost. At the end of the line are very tender plants that can stand no frost at all such as melons, cucumbers, tomatoes, pumpkins.

## Now Grass Early

Grass makes its best growth in the cool, moist weather of spring and fall, hence garden experts advise sowing lawn just as soon as possible. This means as soon as one can walk on the lawn without getting the shoes muddy. This advice applies both in starting new lawns and repairing old ones.

Seldom is it advisable to sow a straight variety of lawn seed, and never in the case of the general family type of lawn. Seed houses put up special mixtures for this purpose, a blend of several different kinds of seed.

Grass, like any other plant, will thrive best in good, rich soil and it is never advisable to sow without good preparation. This means at least one thorough cultivation before seed is sown, working up the top as far as possible, and if necessary also working in a layer of rich, fine loam.

It is highly important that all holes are filled in evenly and pressed down if it is not within the next few years. They think that Canada offers a homeland where their children can be brought up without fear of war devastating the countryside every so often.

This country is great, will be greater. People in Europe are living in constant dread of a new war, believing one will come within the next generation, if not within the next few years. They think that Canada offers a homeland where their children can be brought up without fear of war devastating the countryside every so often.

Practically everyone knows that a rich, open loam which is easily cultivated makes the best garden soil. But not so well known among beginners especially is the fact that even the toughest clay and the most barren sand can, with a little skill and care, be made into fine garden soil.

The secret in both cases is cultivation, plus the incorporation of rotting vegetable matter. One of the best treatments, of course, is plenty of barnyard manure, but this is not always available and especially so in urban locations. Good substitutes are vegetable refuse like tops of beets, carrots, pea pods, lawn clippings, etc. or specially sown green oats, rye or clover dug or plowed under.

## Super-Heat Material

Evolved By Britain's Wool Industry After Years Of Research

Britain has produced a blanket weighing less than the square yard than any other in the world. Shaped, moth proof and rot proof, it weighs only thirty-three ounces—for a full size. It looks like a quilt, has pure fleece stuffing with a Portisan silk fabric cover, and traps millions of air pockets in the fleece, giving the maximum warmth with the minimum weight. Dressing gowns, bed jackets, cot-covers—all can be stuffed with the super-heat material, which was evolved after years of research by Britain's wool industry. Production of the new blanket at present is intended for export.

One machine tabulating 400 names a minute and running 40 hours a week would require two years and eight months to count all the people in the United States.

**HITLER'S CHALET WILL BE SERVICEMEN'S HOME**—Berchtesgaden is one of the cities and towns selected in Germany and Austria where thousands of American families will live when the occupation soldiers' wives and children start arriving. Some of the families will be able to stay at housekeeping in Berchtesgaden beneath Adolf Hitler's shattered, high-perched dwelling. Photo shows what was Hitler's chalet at Berchtesgaden.

## Will Be Greater

Canada Can Grow But Process Will Take Some Time

W. L. Clark, in the Windsor Star, says: Anyone can take pencil and paper and declare that Canada can never have any more than 20,000,000 people. It is easy to sell Canada short. Many people have been doing that for many years.

There is no limit to the number of people this Dominion can have. If Great Britain can have a population of between 40,000,000 and 50,000,000, surely this country can support at least as many.

Growth may be slow, because there will not be the floods of immigration there were early in this century. Yet, there are thousands of people anxious to come to Canada, believing this Dominion offers better opportunities than any other country.

People in Europe are living in constant dread of a new war, believing one will come within the next generation, if not within the next few years. They think that Canada offers a homeland where their children can be brought up without fear of war devastating the countryside every so often.

This country is great, will be greater.

## Nothing Wasted

Rice Sent To England For Wedding Put To Good Use

It is difficult for the average civilian on this lucky continent to realize just how short in food across the Atlantic. Perhaps this little story, from the Northwestern Miller, may help.

Some time ago, in Ipswich, England, Lieut. John Holbauer, of Milwaukee, Wis., wrote his parents of his coming wedding to an English girl. Shortly afterwards he received a package from home which contained the rice that had been thrown at his parents' wedding more than 26 years ago. They had saved it to be tossed at their son's nuptials. It wasn't tossed at the young couple when they left the church, however, but it did appear at the wedding—as a rice pudding.

Nobody throws away rice or any other food in England.—Financial Post.

## ASSURANCE FOR POLES

A foreign office spokesman said the Warsaw government had given "explicit assurances" that Polish troops abroad returning to Poland would not be molested because of political beliefs, and British officials predicted their early demobilization.

## Influenced Morale

Nelson Column In Trafalgar Square Helped Londoners Through Blitz

The periodical examination has again taken place of the Nelson Column in London's Trafalgar Square. W. Larkins, a steeplejack, made the perilous ascent of 145 feet. Having reached the summit of the pediment, he went on to examine the colossal figure of the Great Admiral. When he had descended again to the square, it was to report that all was sound and solid.

Surely the survival of the Nelson Column is one of the most astonishing features of London's long ordeal by bombing. For the column stands at the centre of one of the most important squares in the crowded Westminster district, surrounded by the historic monuments and the government offices which were the favored targets of the enemy. It might have been thought, indeed, that the authorities would have taken the column down, not only for its own protection, but to avoid wide damage which would have resulted had it toppled in any direction.

But the Nelson Column was left standing, and it stood to witness all the sudden crash and ruin, the weird night effects of wild fires and sweeping searchlights. Indeed, it so happened in 1943, with the blitz recently past, and the V-bombers soon to come, that the column marked the one hundredth anniversary of its erection.

No doubt the figure of the Great Admiral, standing with composed resolution on its singularly exalted and exposed position, was not without its influence in maintaining the morale of the city. And no doubt if the historic figure had come to lie in the midst of London's ordeal, it would have spoken the identical words that Nelson himself used when under fire at the battle of Copenhagen: "It is warm work; and this day may be the last to any of us at a moment. But mark you! I would not be elsewhere for thousands."—Montreal Gazette.

## ISLAND IS GROWING

Yokosuka, the world's newest "island", 200 miles south of Tokyo, has broken up into two steaming volcanic masses. Rising to a height of 70 feet and growing larger, the twin humps are almost identical in size and shape and are separated by a 50-foot channel of boiling, swirling water. White steam rising nearly 300 feet constantly puffed out from the fissures around the brown base and sides of the active mass.

## MAKING THEM WORK

The Wall Street Journal tells this story. For more than an hour, the candidate for the Legislature had diligently sawed wood in his quest for the rural young widow's vote. Now she came from the house, smiling her approval, as he mopped perspiration from his brow.

"I declare," she said, "I don't know who to vote for you or Mr. Ellings. Why, right now, he's in the kitchen churning."

Most nuts are at least half fat and are so high in protein that they alternate at times for meat in a main dish.
